

NT 80/1 B1 M S

The NT 80/1 B1 MS safety vacuum cleaner avoids the risk of possible dust explosions caused by gunpowder or black powder. In addition, combustible dusts and category M hazardous dusts have to be vacuumed away immediately since it is risky if they deposit. For vacuuming such dusts, a B1 proofed safety vacuum cleaner like the NT 80/1 B1 MS is needed (European approval of 94/9 EC (ATEX)).

1 Safety first

- The NT 80/1 B1 M S features automatic water level control and can only be operated with a sufficient water level.

2 Zone 22 + dust class M

- For combustible dusts in dust explosion classes, Zone 22 and health-endangering dusts, dust class M.

NT 80/1 B1 M S
