

Alphanumeric Steel Type Marking Sets

A high precision interchangeable Marking Tool Set for quick, straight and accurate multi-character marking by hand and hammer

Sharp Faced engraving style to produce clear positive impressions

Comprises 100 alpha-numeric and punctuation characters according to the most common use plus spacer pieces for non-marking positions and a single row Hand Holder supplied in a strong case with inserts for accurate storage

- Available in 9 Character heights.
- Produce permanent readable impressions on a range of materials including metal and plastic up to a maximum hardness of 37 Rockwell C
- Ideal for all batch and general purpose marking applications

Overview

Making a mark with Steel Type Sets saves time - simply build an inscription into the slot in the Holder and in just one stroke, a series of letters and figures can be indented with uniform legibility.

Hand Holders designed to provide accurate Type location and positive locking. Simply adjust the grub screw with the Allen Key provided for quick inscription change.

Safety Grip available as an accessory to work with Hand Holders allows the user to make a controlled and confident strike by keeping the fingers at a safe distance, reducing the risk of injury and assisting in making a good quality mark.

Steel Type with uniformity of blank size, character position and depth from one piece to another allows a straight, consistent quality mark to be made on a range of materials including metal and plastic up to a maximum hardness of 37 Rockwell C

Individual Characters, plus Sets of Letters & Figures, Number Kits and Holders are all available to purchase should the composition of this set not match your needs.

Manufactured under stringent BS EN ISO 9001:2008 quality controls and exacting standards.

Safety note: As with all striking tools, we recommend the use of appropriate safety protection. Safety glasses and gloves should be worn at all times

- Produced from the best steel grades for long life.
- Precision ground blanks to give clear marks of consistent depth.
- Sharp Faced character style with uniform depth of engraving to give a quality mark.
- Hardened and tempered to precise limits to ensure consistency, durability and safety in use.
- Nickel plated finish to resist rust and offer a good quality appearance.
- Larger holders (6mm & 10mm) designed with a spring clip for extra safety.
